WILLIAM THOMPSON.....	Foreman

PRISON REPORT

To the Honorable State Board of Examiners, Helena, Montana.

Gentlemen:

Herewith is submitted the twenty-seventh biennial report of the Montana State Prison for the two year period ending June 30, 1930.

Elsewhere will be found a complete financial and statistical statement covering all transactions as shown by the books and records, for the period covered by this report, to which your attention is respectfully called.

POPULATION

During this biennium there has been an increase of 247, there being a total of 462 on June 30, 1928, and on June 30, 1930, a total of 710. This is an increase of 53.6% for the two years.

HEALTH

We have very good sanitary conditions with the result that very little sickness occurs. Six inmates died during the two year period. A good hospital is maintained where all serious cases are treated and necessary operations performed. Upon arrival, each prisoner is examined, his blood test taken, and if any contagious or communicable disease is found, he is immediately isolated from the others.

PAROLE LAW

During this biennium, 495 men and women were paroled, 50 were discharged, 15 were pardoned, 10 were transferred to the Insane Hospital at Warm Springs, and 4 transferred to the State Industrial School at Miles City. 28 were returned for violation of parole.

ESCAPES

Five men escaped from the prison ranches or trusties during this period. Three of these were returned in addition to three others who had escaped during previous years.

EMPLOYMENT

During the first year of this biennium, 23.4% of our population were employed on ranches, in office, Motor Vehicle department office and in various work on the outside of the walls. During the second year, 20.5% were likewise employed. In addition, approximately twenty men were employed inside the walls in the Auto License Plate Factory, thirty in the Garment Factory, thirty in the mailing division of the Registrar of Motor Vehicle department, besides those that were required to keep up the work in the kitchen, dining room, bakery, laundry, barber shop, carpenter shop, shoe repairing shop, plumbing shop and vulcanizing shop.

DECREASED COST OF MAINTENANCE

I wish to call your attention to the following figures showing the decreased cost of maintenance per man per day: 1921-1922, \$1.57; 1922-1923, \$1.40; 1923-1924, \$1.27; 1924-1925, \$1.19; 1925-1926, \$1.15; 1926-1927, \$1.08; 1927-1928, 95c; 1928-1929, \$1.02; 1929-1930, 87c, the past year being the lowest maintenance cost that I can find in the records.

FARM

All the butter, eggs, milk, cream, pork, poultry, veal and vegetables have been furnished the institution from the farms, produced by prison labor. Also, part of the beef. Surplus crops have been sold. Land owned by the Prison produces approximately 300 tons of hay, 100 tons of ensilage and 50,000 lbs. of grain per year. The balance of our crop of hay, grain and vegetables is raised on leased land, which is very unsatisfactory. We should have additional farm land so that we could raise sufficient feed to take care of our needs and reduce our purchases to a minimum. 165 hogs were raised last year and we expect to have about 260 this year.

AUTO LICENSE PLATE FACTORY

A total of 115,116 pairs of passenger plates, 25,056 pairs of truck plates, 537 sets of dealer's plates and 1,344 pairs of exempt plates were made for the year 1929 at a cost of 7c per pair.

A total of 120,000 pairs of passenger plates, 30,000 pairs of truck plates, 575 sets of dealer's plates and 1,411 pairs of exempt plates were made for 1930 at a cost of approximately 7c per pair. The cost of plates in 1927 as purchased from the Gopher Stamp and Die Company was 11¾c per pair. On this basis the plant has saved the cost of its capital investment of \$13,182.95 during the past two years alone.

STATE GARMENT FACTORY

1902 dozens of garments, consisting of overalls, jumpers, work shirts, coveralls and nightgowns were made and sold to other institutions within the State during this period, in addition to making the clothing for our own needs. On June 30, 1928, the revolving appropriation was overdrawn \$534.27. This has been made up and the Factory now shows a profit of \$839.11, without taking into consideration any reserve for depreciation of machinery. This amount is ample to cover any depreciation as the entire capital investment is but \$4,102.75 for machinery and tools and equipment.

PRISON APPROPRIATION

Owing to a greatly increased population, our appropriation for the year ending June 30, 1930, was overdrawn \$27,866.31. We anticipate a further overdraft of \$39,718.32 during the fiscal year ending June 30, 1931. We arrive at this figure by what we have expended for the first four months of the fiscal year 1930-1931 which amounts to \$67,239.43, an average of \$16,809.86 per month. Multiplying by twelve we have the sum of \$201,718.32 for the year. We anticipate earnings of \$18,000.00 plus

appropriation of \$144,000.00, making our total available funds \$162,000.00, leaving a deficit of \$39,718.32 for the ensuing year and a total of \$67,584.63 for the two years.

Respectfully submitted,

AUSTIN B. MIDDLETON, Warden.

REPORT OF CHAPLAIN

It seems to me but a short time since my last report was made. But two years seems a long time to young and naturally active boys who are in our State Prison. If the thoughtless people who criticize the efforts that are made to make prison life more endurable could have experience, first hand, with our prison population, I am sure that their remarks would be greatly moderated. To be sure, some inmates must be dealt with severely. But the great majority are appreciative of any kindness that they receive. Their one thought is to endure their sentence and avoid any further trouble or suffering.

The Ministers of Deer Lodge, and a few outside speakers, have addressed the audiences in the Prison Theatre. Attention has been good. Just how much has been accomplished no one knows. No one knows what is going on in a man's mind. But the fact that the attendance is a good percentage of the population is encouraging to the speakers who hold the services.

For the benefit of any who are not informed, I will give the monthly schedule of Religious services. Each Sunday is assigned to a Minister representing a Church. First Sunday; Presbyterian. Second Sunday; Catholic in the forenoon and Christian Science in the afternoon. Third Sunday; Methodist. Fourth Sunday; Episcopal. The Salvation Army hold a service the First Monday of each month. Other speakers, who are qualified, are given a hearing at suitable times.

It is the conviction of all the Ministers that the present system is inadequate to the needs. A group of over seven hundred people need the services of a Chaplain whose entire duty is to be among the inmates of the prison, giving them timely counsel when needed most.

I believe I speak the sentiments of the Ministers when I pay an acknowledgment to the Warden and his assistants for their courteous treatment and encouragement of our efforts. We find order and good discipline everywhere about the institution. And yet there is no fear of undue severity or injustice. We have some misgivings that the overcrowded condition will be a detriment to the welfare of the inmates. Over-crowding and idleness are the two most serious draw-backs that we observe.

Respectfully,

F. C. PHELPS,

Manager of Religious Schedule.

MOVEMENT OF POPULATION

From July 1, 1928, to June 30, 1929

In institution at beginning of fiscal year	462

Totals	462	387	286	563	473	326	710

* Up until the year 1926 the only data taken upon prisoners regarding their education was whether or not they were able to read and write, hence a good many of those listed above as able to read and write have had schooling but the amount is not known. Those listed as Illiterate are those who have had no education in this country, but some of whom have had fair education in foreign countries.

Machinery and Appliances	415.87
Furniture and Fixtures	47.00
Other Repairs and Replacements	211.92
Total Repairs and Replacements	\$ 696.47

The Motor Vehicle Department in December, 1929, moved from the Prison office proper, to the newly constructed office building of the Registrar of Motor Vehicles.

This building is constructed of concrete, with full basement and will be sufficient to house the records for a number of years.

At the present time these records consist of 1,135,224 card records, this amount not including the 1930 registrations, nor the records of dealers, chauffeurs, accessory dealers, and other miscellaneous records.

Approximately 45 men are employed in the issuance of license plates during the year.

This department has assets of approximately \$20,000.00 invested in permanent filing cabinets, and other fixtures including the recently constructed building mentioned above. From the 1926 registrations which were 115,234 the amount has increased to 140,172 for the year of 1929. 1930 figures are not available at this time. The cost of issuing the plates has decreased from the two year period ending June 30, 1928, in the sum of \$11,152.20, and the average cost from .360711 in the two year period ending June 30, 1928, to the sum of .276 for the two year period ending June 30, 1930. On the first day of each month the amounts collected and credited to the various counties from which received is distributed to the respective counties through the Board of Examiners and the State Auditor, where warrants are drawn and forwarded the County Treasurers of each county.

Sufficient funds are reserved from the amounts received during January to liquidate all expenses during the Calendar year, and any funds remaining at the close of this calendar year are pro-rated back to the counties.

Respectfully submitted,

AUSTIN B. MIDDLETON,
Registrar Motor Vehicles.

S. C. SMALL,
Deputy Registrar.
